Levi Rahman

Senior Full-Stack Engineer
Toronto, ON
everygitme@gmail.com
+1 579 790 1159

Engaged in decision-making through code reviews to ensure quality and standards compliance, as well as re-usability and ease of maintenance. Highly proficient in object-oriented methodologies, data structures, algorithms, as well as quality coding and excellent debugging skills.

It would be better to reach me via email or skype, discord.

I'm not available well in mobile.

Authorized to work in the US for any employer

Work Experience

Full Stack Developer
Kylin Network
December 2021 to Present

Working with Front-end components for the Crowdloan.

Web Developer
LGCY Network
February 2021 to January 2022

Working with wallet plugin - similar to Tronlink.

Forked Tronlink & customized it.

Front End Developer
88mph
December 2020 to August 2021

Worked with several adapters, especially Curve adapter.

Web3/React Developer
cVault Finance
March 2021 to April 2021

I worked as a web3/react engineer in c Vault Finance.

In c Vault Finance, I participated in developing the Delta Financial and launched successfully at Mar 28. 12.PM EST.

Full Stack Developer
Universal XDR
January 2015 to June 2020

I worked as a remote developer for Universal XDR, Universal XDR was a software product group which located in Australia.

It was originally an internal project, which is an Australian conveyancing

The tech stack was ASP.NET Core/React. It was using Aurelia for the frontend, but I redeveloped the frontend using React from scratch.
